**The TREE** is a monthly newsletter Published by **TIST** Uganda, a project area of **The International Small Group and Tree Planting Program**.

**MISSION STATEMENT:**

TIST Uganda is a community initiative dedicated to empowering small groups of subsistence farmers to combat the devastating effects of deforestation, poverty and drought.

**OBJECTIVE STATEMENT:**

Combining sustainable development with carbon sequestration, TIST supports the reforestation efforts of over 79,200 subsistence farmers. Sales of carbon credits generate participant income while TIST today also addresses Agriculture, HIV/AIDS, Nutrition and Fuel Wood challenges.

## **DO YOU HAVE TIST GROVES WITH TREES THAT GOT LOST? PLEASE HELP TO FIND THEM**

Many TIST Farmers have brought requests that some of their TIST Groves are no longer quantified.

Some of those Groves have TIST trees in them. Yet, they do not get quantified either because Cluster Servants are unable to find them or they had bushes at some point. Some have stayed long without quantification because there was no Cluster Servant to serve your area.

We are requesting your help to find them. You may inform your Cluster Leaders or Cluster Servants. You may also contact Eunice Wambui phone number 0724 431071.

Eunice is our TIST Desk Auditor. She works with a Team that check the quality and completeness of quantified information obtained by Cluster Servants from your Tree Groves.

When you contact her, she will ask your details such as Name and TIST Number of your Small Group. She will also like to know the name of your Grove and the last Cluster Servant who visited your farm. Please be prepared with this information when contacting her. If you are unable to get these details, you may contact your Cluster Servant for help.

Eunice and other Desk Auditors will check in the computer (database) to see whether your tree Groves still exist in our system. They will check further to see if your Groves is still eligible for carbon.

Thereafter, they will contact you to let you know their findings. If the Grove will be eli-

gible, a Cluster Servant will come to quantify it. This will help you and your Small Group participate more in carbon business.

## **"WE ARE MUTUALLY ACCOUNTABLE"**

Understanding this TIST Value through Small Group action

One of the TIST Values is "We are mutually accountable." For TIST farmers, this literally means that every action taken by a member of a Small Group affects the whole group—positively or negatively—and that all achievements reflect the collective effort of every member.

## **TIST Small Group (SG):**

TIST operates through Small Groups (SGs) of six to twelve members. Let's consider one such SG, called Kyabihire Tree Planting Group, made up of six dedicated members: Amina, David, Grace, Joseph, Linda, and Moses.

## **Tree planting and protection in SGs**

### **1. Positive actions benefit all**

If Amina plants her seedlings carefully and ensures proper care, the trees survive and grow well. Because the SG reports collectively, Amina's diligence benefits the entire Kyabihire Tree Planting Group, contributing to better carbon record and potential payments.

### **2. Collective responsibility and consequences**

Suppose Joseph decides to prematurely harvest some of his trees. This action reduces the total carbon tonnes recorded for the

Kyabihire Tree Planting Group, which in turn reduces the payment the SG receives for carbon credits.

Even if the other members—Amina, David, Grace, Linda, and Moses—took perfect care of their trees, the SG would still incur a financial loss and may need to compensate for the lost carbon tonnes by planting new trees.

### 3. Shared efforts and joint support

Grace notices a pest outbreak and informs the group. Together, the members act to control it, protecting everyone's trees. The collective action demonstrates how each member's attentiveness enhances the SG's effectiveness.

Similarly, when David, Linda, and Moses contribute to SG activities like nursery management or land preparation, the work becomes faster and more efficient, reinforcing the value of mutual accountability.

### Why mutual accountability matters

**Shared Success:** Positive actions by one member benefit the whole group; a good tree survival rate and verified carbon credits are rewards for everyone.

**Reciprocal responsibility:** Mistakes or premature actions affect everyone. Joseph's harvesting, in this case, reduces Kyabihire Tree Planting Group's payments, illustrating the direct consequences of neglecting mutual accountability.

**Trust and Cooperation:** Accountability builds trust, encourages members to support one another, and fosters a culture of collective responsibility.

In the Kyabihire Tree Planting Group, mutual accountability is a value as well as a daily practice. Each member's actions—planting, protecting, or even harvesting trees—impact the entire SG. For Amina, David, Grace, Joseph, Linda, and Moses, this ensures that:

When one succeeds, all succeed.

When one falters, all feel the impact.

By embracing mutual accountability, TIST farmers recognize that their individual efforts are inseparable from the Small Group's achievements. This ensures that the Kyabihire Tree Planting Group continues to thrive, contributes to sustainable tree planting, and earns fair carbon benefits through their collective dedication.

### YET ANOTHER TEAM IN TIST – TIST NEWS DESK

We are happy to introduce ourselves to TIST Farmers and Outside World. We are TIST News Desk.

Our main goal is to listen to you, provide you with accurate, honest, and transparent information in real time. We will be engaging you through different channels. Among them will be TIST News Desk Hotline numbers; USSD codes; TIST Learning Center; TIST Chatbot; TIST Mobile website; TIST website, WhatsApp Groups.

Soon, we will share more details on how you can access TIST Facebook page, TIST Tiktok, TIST community WhatsApp and other channels.

TIST Uganda Hotline numbers are: + 25677 5609779,+256772388672,+256774121565 ,+256772058868 In Uganda, USSD code is

## RUNYAKORE

\*284\*7070#. It's a shared code for all networks (MTN, Airtel) and its free. You will not be charged for accessing it.

These codes are available to people using smart phones and those using “kabambe”/ buttons phones. This means many of our farmers can easily access it. When you dial any of these codes, you will be able to see/read information about TIST and be able to check your Small Group status.

TIST Learning Center is accessible through the online webpage. You need to have a smartphone or computer or tablet and have internet. You will access it via <https://learn.tist.org/> . TIST Learning center offers you with full package of TIST Trainings. You will be able to learn more about TIST. Further, it helps new Small Group to make applications to join TIST.

TIST Chabot is our Artificial Intelligence (AI) tool. It is a search engine just like Google, chat GPT or any a AI tools/ apps. It helps answer any questions you have about TIST or your Small Group. This tool is still under development. When its complete, we will communicate to all our TIST Farmers.

TIST Website is accessed via [www.tist.org](http://www.tist.org). Here, you will be able to see your Small Groups tree planting results as quantified by your Cluster Servants. You will also be able to access past TIST Newsletters.

TIST Mobile Website. [www.tist.org/mobile](http://www.tist.org/mobile). Here, you will be required to log in as a “Guest.” This page will give you information about your Cluster, your Small Group and Trainings.

## KISWAHILI

### JE, UNA MITI YA TIST YENYE MITI ILIYOPOTEA? TAFADHALI SAIDIA KUWAPATA

Wakulima wengi wa TIST wameleta maombi kwamba baadhi ya mashamba yao ya TIST hayajahesabiwa tena.

Baadhi ya mashamba hayo yana miti ya TIST ndani yake. Walakini, hazijahesabiwa ama kwa sababu Watumishi wa Nguzo hawawezi kuzipata au walikuwa na vichaka wakati fulani. Baadhi wamekaa kwa muda mrefu bila kuhesabiwa kwa sababu hapakuwa na Mtumishi wa Nguzo kuhudumia eneo lako.

Tunaomba usaidizi wako kuzipata. Unaweza kuwajulisha Viongozi wako wa Nguzo au Watumishi wa Nguzo. Unaweza pia kuwasiliana na Eunice Wambui nambari ya simu 0724 431071.

Eunice ndiye Mkaguzi wetu wa Dawati la TIST. Anafanya kazi na Timu ambayo hukagua ubora na ukamilifu wa taarifa zilizoidhinishwa zilizopatikana na Watumishi wa Nguzo kutoka kwa Miti yako.

Unapowasiliana naye, atakuuliza maelezo yako kama vile Jina na Nambari ya TIST ya Kikundi chako Kidogo. Pia atapenda kujua jina la Grove yako na Mtumishi wa mwisho wa Nguzo ambaye alitembelea shamba lako. Tafadhali jitayarisha na habari hii unapowasiliana naye. Ikiwa huwezi kupata maelezo haya, unaweza kuwasiliana na Mtumishi wa Cluster yako kwa usaidizi.

Eunice na Wakaguzi wengine wa Dawati wataangalia kwenye kompyuta (database) ili kuona kama miti yako Groves bado ipo katika mfumo wetu. Wataangalia zaidi ili kuona kama Groves yako bado inastahiki kaboni.

Baada ya hapo, watawasiliana nawe ili kukujulisha matokeo yao. Ikiwa Grove itastahiki, Mtumishi wa Nguzo atakuja kuhesabu. Hii itakusaidia wewe na Kikundi chako kushiriki zaidi katika biashara ya kaboni.

"TUNAWAJIBIKA PAMOJA"

Kuelewa Thamani hii ya TIST kupitia hatua ya Kikundi Kidogo

Mojawapo ya Maadili ya TIST ni "Tunawajibika kwa pan-

de zote." Kwa wakulima wa TIST, hii inamaanisha kuwa kila hatua inayochukuliwa na mshiriki wa Kikundi Kidogo huathiri kikundi kizima—chanya au hasi—na kwamba mafanikio yote yanaonyesha juhudi za pamoja za kila mwanachama.

Kikundi Kidogo cha TIST (SG):

TIST inafanya kazi kupitia Vikundi Vidogo (SGs) vya wanachama sita hadi kumi na wawili. Hebu tufikirie SG kama hiyo, inayoitwa Kikundi cha Kupanda Miti cha Kya-bihire, kinachoundwa na wanachama sita waliojitolea: Amina, David, Grace, Joseph, Linda, na Moses.

Upandaji miti na ulinzi katika SGs

1. Matendo chanya yanawanufaisha wote

Ikiwa Amina atapanda miche yake kwa uangalifu na kuhakikisha utunzaji unaofaa, miti huishi na kukua vizuri. Kwa sababu SG inaripoti kwa pamoja, bidii ya Amina inanufaisha Kikundi kizima cha Kupanda Miti cha Kyabihire, na kuchangia katika rekodi bora ya kaboni na malipo yanayoweza kutokea.

2. Wajibu wa pamoja na matokeo

Tuseme Yusufu anaamua kuvuna baadhi ya miti yake kabla ya wakati wake. Hatua hii inapunguza jumla ya tani za kaboni zilizorekodiwa kwa Kikundi cha Upandaji Miti cha Kyabihire, ambacho kinapunguza malipo ambayo SG inapokea kwa mikopo ya kaboni.

Hata kama wanachama wengine—Amina, David, Grace, Linda, na Moses—wangetunza miti yao kikamilifu, SG bado itapata hasara ya kifedha na inaweza kuhitaji kufidia tani za kaboni zilizopotea kwa kupanda miti mipya.

3. Juhudi za pamoja na usaidizi wa pamoja

Grace anagundua mlipuko wa wadudu na anaarifu kikundi. Kwa pamoja, wanachama hutenda ili kuidhibiti, kulinda miti ya kila mtu. Kitendo cha pamoja kinaonyesha jinsi usikivu wa kila mwanachama unavyoboresha ufanisi wa SG.

Vile vile, David, Linda, na Moses wanapochangia shughuli za SG kama vile usimamizi wa kitalu au utayarishaji wa ardhi, kazi inakuwa ya haraka na yenye ufanisi zaidi, ikiimarisha thamani ya uwajibikaji wa pande zote.

Kwa nini uwajibikaji wa pande zote ni muhimu

Mafanikio ya Pamoja : Vitendo vyema vya mwanachama mmoja hunufaisha kikundi kizima; kiwango kizuri cha kuishi kwa mti na mikopo ya kaboni iliyothibitishwa ni zawadi kwa kila mtu.

Wajibu wa kuheshimiana : Makosa au vitendo vya mapema huathiri kila mtu. Uvunaji wa Joseph, katika kesi hii, unapunguza malipo ya Kikundi cha Upandaji Miti cha Kyabihire, ikionyesha matokeo ya moja kwa moja ya kupuuza uwajibikaji wa pande zote.

Uaminifu na Ushirikiano: Uwajibikaji hujenga uaminifu, huhimiza wanachama kusaidiana, na kukuza utamaduni wa uwajibikaji wa pamoja.

Katika Kikundi cha Upandaji Miti cha Kyabihire, uwajibikaji wa pande zote ni thamani pamoja na mazoezi ya kila siku. Vitendo vya kila mwanachama—kupanda, kulinda, au hata kuvuna miti—huathiri SG nzima. Kwa Amina, David, Grace, Joseph, Linda, na Moses, hii inahakikisha kwamba:

Mtu anapofanikiwa, wote hufanikiwa.

Mtu anapoyumba, wote huhisi athari.

Kwa kukumbatia uwajibikaji wa pande zote, wakulima wa TIST wanatambua kwamba juhudi zao binafsi haziwezi kutenganishwa na mafanikio ya Kikundi Kidogo. Hii inahakikisha kwamba Kikundi cha Upandaji Miti cha Kyabihire kinaendelea kustawi, kuchangia katika upandaji miti endelevu, na kupata manufaa ya haki ya kaboni kupitia kujitolea kwao kwa pamoja.

## **BADO TIMU NYINGINE KATIKA TIST – HABARI ZA DAWATI YA TIST**

Tunayo furaha kujitambulisha kwa Wakulima wa TIST na Nje ya Ulimwengu. Sisi ni Dawati la Habari la TIST.

Lengo letu kuu ni kukusikiliza, kukupa taarifa sahihi, uaminifu na uwazi kwa wakati halisi. Tutakushirikisha kupitia chaneli mbalimbali. Miongoni mwao kutakuwa na nambari za Simu ya Hotline ya Dawati la Habari la TIST; misimbo ya USSD; Kituo cha Mafunzo cha TIST; TIST Chatbot; Tovuti ya TIST ya Simu; Tovuti ya TIST, Vikundi

vya WhatsApp.

Hivi karibuni, tutashiriki maelezo zaidi kuhusu jinsi unavyoweza kufikia ukurasa wa Facebook wa TIST, TIST Tiktok, WhatsApp ya jumuiya ya TIST na vituo vingine.

Nambari za Simu ya TIST Uganda ni: + 256775609779,+ 256772388672,+256774121565,+256772058868

\*Nchini Uganda, msimbo wa USSD ni \*284\*7070#. Ni msimbo unaoshirikiwa kwa mitandao yote (MTN, Airtel) na bila malipo. Hutatozwa kwa kuipata.

Nambari hizi zinapatikana kwa watu wanaotumia simu mahiri na wale wanaotumia simu za “kabambe”/vifungo. Hii ina maana wakulima wetu wengi wanaweza kuipata kwa urahisi. Unapopiga misimbo yoyote kati ya hizi, utaweza kuona/kusoma taarifa kuhusu TIST na kuweza kuangalia hali ya Kikundi chako Kidogo.

Kituo cha Mafunzo cha TIST kinapatikana kupitia ukurasa wa mtandaoni. Unahitaji kuwa na simu mahiri au kompyuta au kompyuta kibao na uwe na mtandao. Utaifikia kupitia <https://learn.tist.org/>. Kituo cha Mafunzo cha TIST hukupa kifurushi kamili cha Mafunzo ya TIST. Utaweza kujifunza zaidi kuhusu TIST. Zaidi ya hayo, inasaidia Kikundi kipya kipya kutuma maombi ya kujiunga na TIST.

TIST Chabot ni zana yetu ya Ujasusi Bandia (AI). Ni injini ya utafutaji kama vile Google, chati ya GPT au zana/ programu zozote za AI. Inasaidia kujibu maswali yoyote uliyo nayo kuhusu TIST au Kikundi chako Kidogo. Chombo hiki bado kinatengenezwa. Ikikamilika, tutawasiliana na Wakulima wetu wote wa TIST.

Tovuti ya TIST inapatikana kupitia [www.tist.org](http://www.tist.org). Hapa, utaweza kuona matokeo yako ya upandaji miti ya Vikundi Vidogo kama yalivyokadiriwa na Watumishi wako wa Nguzo. Pia utaweza kufikia Vijarida vya TIST vilivyopita.

Tovuti ya Simu ya TIST. [www.tist.org/mobile](http://www.tist.org/mobile). Hapa, utahitajika kuingia kama “Mgeni.” Ukurasa huu utakupa taarifa kuhusu Kundi lako, Kikundi chako Kidogo na Mafunzo.

Erinyuma bakendi syakutherera ibakubwira ebyamalwamu. Erilima lyaghu lyamabya irikyinatolerene, CS akisyasa inaribalha. Ekyi kyikendisakuwashikya n’egurupu yaghu omuyitsungira omwabusubure bwembeho.

”THUKABARILHANA ”

Erikenga engusu eyi erilhaba omwamikolhere y’egurupu.

Engusu enguma ye TIST ni ” Thukabarilhana.” Oku balimi be TIST, ekyi kyikamanyisaya kyithi emikolere eyobuli mumemba omwagurupu yikahamba okwa gurupu eyosi - omunabi kwetsi omundeke - nebikarwamu bikakangania amani aw’obulimumu-memba.

Egurupu enyike eye TIST (SG)

TIST yikakolhera omusyagurupu esikesike(SGs) esyabandu 6 - 12. Ekyerileberyaku: Kyabihire tree planting group yikolirwe nabandu 6; Amina, David, Grace, Joseph, Linda na Moses.

Erihera emithi nerilhindayo omwa SGs

1. Emikolere mibuya nibuwathikya obwabosi. Amina amahera emithi yiwe yandekere kandi nerilabirirayu ndeke, emithi yikakulha ndeke. Kusangwa SG yikakangania ebyabosi haghumerere,

emikolere yandeke ya Amina yikawathikaya egurupu eyosi - Kyabihire tree planting group.

2. Erikolhera haghuma: Joseph amathwamu erithema emithi yiwe; ekyi kyikakehaya embeho y'egurupu eye Kyabihire tree planting group, kandi kyikakehaya n'emithuhire y'egurupu eyu.

Abandi bamemba - Amina, David, Grace, Linda na Moses nomubangalhabirira emithi yabo yandeke, esyasente syegurupu sikisakeha, kandi kyanganyethesibwa erihera emithi emihyaka eyindi.

3. Erisorokya amani n'eriwathikangania. Grace makaminyerera obuhuka obukatsandaya amabwira egurupu; egurupu eyosi iyatsungabu. Eritsomana eryobulimumemba rikongera okwa emikolere yandeke y'egurupu.

David, Linda na Moses bamakolera haghuma omwamibiri y'egurupu, ng'omwilasya embuthu kwetsi omwitakanizya erilima, omubiri akahwa lhuba kandi inakolebwa ndeke. Ekyi kyikakangania omughaso weribalhirana.

Habwakyi eribalhirana nikyikulhu

Erisungura haghumerere. Ebibuya ebikakolebawa nomumemba mughuma bikawathikaya egurupu eyosi; eribayoh ndeke ly'emithi n'embeho eyiwene nibyobulimundu.

Erikolhera haghuma. Esyansobi kwetsi emikolere eyithahikire bikahamba okwa bulimundu omwa gurupu eyu. Emithemere y'emithi nga Joseph omukyerilheberyako, kyikakehaya emithuhire ya Kyabihire tree planting group, ekyikakanganaya ekyithibu kyerithendi barilhana.

Obuyisiwa nerikolhera haghuma. Eribarilhana rikahimba obuyisiwa n'abamemba eriwathikangania.
