TIST NEWSLETTER APRIL 2026

Bugangari cluster meeting in Rukungiri

Bugarama cluster meeting in Kabale

Cluster meeting held Arapai cluster

Cluster meeting for greater Teso region

The TREE is a monthly newsletter Published by **TIST** Uganda, a project area of **The International Small Group** and **Tree Planting Program**.

MISSION STATEMENT:

TIST Uganda is a community initiative dedicated to empowering small groups of subsistence farmers to combat the devastating effects of deforestation, poverty and drought.

OBJECTIVE STATEMENT:

Combining sustainable development with carbon sequestration, TIST supports the reforestation efforts of over 79,200 subsistence farmers. Sales of carbon credits generate participant income while TIST today also addresses Agriculture, HIV/AIDS, Nutrition and Fuel Wood challenges.

ADDRESS:

2025 PROFITSHARE, THE NEWS TO CELEBRATE

We are happy to announce that 2025 profitshare payment starts on May 1st 2026.

For all SGs that qualify for 2025 profitshare will receive payments. We are sending payment letters to farmers to sign them; all sg members are required to sign and return to cluster servants and payments will be sent as soon as possible.

For small groups that do not qualify for 2025 profitshare now, we are sending you letters indicating the missing information to fix, please work with your cluster servants to fix the missing information and your small group will be eligible for-profit payment as soon as accurate information is updated.

Here are 2025 profitshare eligibility requirements;

- All groves have been quantified within 12 months
- SG has a GHG contract signed and uploaded
- All groves have accurate baseline information (ownership, displacement, and deforestation)
- All groves have approved tracks
- SG has at least one active grove
- SG is not dropped.

How Profit Share Works

TIST participants accomplish many things. They implement Best Practices on their own farms, they capture carbon in their trees, and they improve their leadership skills to help other activities in their community. As you know very well, your trees eat carbon dioxide in order to grow. When the Cluster Servant counts the trees and measures the size, TIST is able to measure the amount of carbon dioxide removed. TIST has to prove this amount by having verifiers come and calculate the tonnage to make sure we are following all of the requirements of the standards organization ("Verra").

Carbon tonnes sell for lots of different prices, based on the quality of the organization and the operations that create those tonnes. TIST has always had higher prices than average, because of the Visible Benefits that TIST farmers create.

What makes customers willing to pay more for TIST tonnes?

- Visible Benefits such as Beekeeping, Conservation Farming, Organic Farming, Energy Saving Cookstoves, Compost Manure Management, rotational leadership and more!
- TIST Leadership development for women and men
- Fruit and nut trees, indigenous species and diversity of trees
- Transparency of the TIST Program means the customer has better information about where the tonnes come from

You share in the higher prices of TIST tonnes because those higher prices give us higher profits. You receive 70% of those profits.

TIST Program Profile by Country

Uganda: TIST has been working in Uganda since 2003.

TIST Uganda By Numbers

Number of Groups: 16,702

Number of Group Members: 108,117

Number of Villages: 5,981

Number of Total Trees: 15,297,218

Tanzania: TIST in Tanzania began in December 1999

TIST Tanzania By Numbers

Number of Groups: 1,704

Number of Group Members: 11,560

Number of Villages: 304

Number of Total Trees: 2,080,107

India: TIST in India began in 2002

TIST India By Numbers

Number of Groups: 1,679

Number of Group Members: 9,031

Number of Villages: 1,057

Number of Total Trees: 1,677,595

Kenya: TIST in Kenya began in 2004

TIST Kenya By Numbers

Number of Groups: 27,220

Number of Group Members: 176,884

Number of Villages: 6,490

Number of Total Trees: 11,039,007

Summary: TIST By Numbers

- Countries: 4
- Farmers: 305,592
- Small Groups: 58,120
- Trees: 30,093,927

TIST farmers.

Our Data in TIST

In order to sell carbon credits, and in order to make the proper Profit Share payments, the information and data given to your Cluster Servant, and then entered into the database, must be accurate. As you all know, we have been working the last two years to get that information completely accurate. In support of this, please confirm the two items below.

- All members are included in the GHG contract
- All quantified groves belong to members included on the GHG contract

Thank you for your understanding and for your ongoing commitment to TIST.

"WE ARE MUTUALLY ACCOUNTABLE"

Understanding this TIST Value through Small Group action

One of the TIST Values is "We are mutually accountable." For TIST farmers, this literally means that every action taken by a member of a Small Group affects the whole group—positively or negatively—and that all achievements reflect the collective effort

of every member.

TIST Small Group (SG):

TIST operates through Small Groups (SGs) of six to twelve members. Let's consider one such SG, called Kyabihire Tree Planting Group, made up of six dedicated members: Amina, David, Grace, Joseph, Linda, and Moses.

Tree planting and protection in SGs

1. Positive actions benefit all

If Amina plants her seedlings carefully and ensures proper care, the trees survive and grow well. Because the SG reports collectively, Amina's diligence benefits the entire Kyabihire Tree Planting Group, contributing to better carbon record and potential payments.

2. Collective responsibility and consequences

Suppose Joseph decides to prematurely harvest some of his trees. This action reduces the total carbon tonnes recorded for the Kyabihire Tree Planting Group, which in turn reduces the payment the SG receives for carbon credits.

Even if the other members—Amina, David, Grace, Linda, and Moses—took perfect care of their trees, the SG would still incur a financial loss and may need to compensate for the lost carbon tonnes by planting new trees.

3. Shared efforts and joint support

Grace notices a pest outbreak and informs the group. Together, the members act to control it, protecting everyone's trees. The collective action demonstrates how each member's attentiveness enhances the SG's effectiveness.

Similarly, when David, Linda, and Moses contribute to SG activities like nursery management or land preparation, the work becomes faster and more efficient, reinforcing the value of mutual accountability.

Why mutual accountability matters

Shared Success: Positive actions by one member benefit the whole group; a good tree survival rate and verified carbon credits are rewards for everyone.

Reciprocal responsibility: Mistakes or premature actions affect everyone. Joseph's harvesting, in this

case, reduces Kyabihire Tree Planting Group's payments, illustrating the direct consequences of neglecting mutual accountability.

Trust and Cooperation: Accountability builds trust, encourages members to support one another, and fosters a culture of collective responsibility.

In the Kyabihire Tree Planting Group, mutual accountability is a value as well as a daily practice. Each member's actions—planting, protecting, or even harvesting trees—impact the entire SG. For Amina, David, Grace, Joseph, Linda, and Moses, this ensures that:

When one succeeds, all succeed.

When one falls, all feel the impact.

By embracing mutual accountability, TIST farmers recognize that their individual efforts are inseparable from the Small Group's achievements. This ensures that the Kyabihire Tree Planting Group continues to thrive, contributes to sustainable tree planting, and earns fair carbon benefits through their collective dedication

Data yaffe mu TIST

Okusobola okutunda kaboni, n'okusobola okusaula obulungi emigabo gy'Amagoba, amawulire ne data ebiweebwa Cluster Servant wo, n'oluvannyuma ebiyingiziddwa mu database, birina okuba ebituufu. Nga mwenna bwe mumanyi, emyaka ebiri egiyise tubadde tukola okulaba ng'amawulire ago matuufu ddala. Mu kuwagira kino, nsaba okakase ebintu bino ebibiri wansi.

- Bammemba bonna bali mu ndagaano ya GHG

- Enimiro zonna ezabalibwa nga za bammemba abali ku ndagaano ya GHG

Mwebale okutegeera kwo n'okwewaayo kwammwe okugenda mu maaso eri TIST.

"Tuli Mutually Accountable" ffena tukwatibwako

Okutegeera Omuwendo guno ogwa TIST nga tuyita mu kikulwa kya Small Group

Ekimu ku mpisa za TIST kiri nti "Tuvunaanyizibwa buli omu." Ku balimi ba TIST, kino kitegeeza buterevu nti buli kikulwa ekikolebwa mmemba w'Ekibiina Ekitono kikosa ekibiina kyonna — mu ngeri ennungi oba embi —era nti ebituukiddwaako byonna biraga kaweeefube wa buli mmemba ow'awamu.

Ekibiina kyaTIST ekitono (SG):

TIST ekola ng'eyita mu bibiina ebitono (SGs) ezirimu bammemba mukaaga ku kkumi na babiri. Ka tulabe SG emu ng'ezo, eyitibwa Kyabihire Tree Planting Group, erimu bammemba mukaaga abewaddeyo: Amina, David, Grace, Joseph, Linda, ne Moses.

Okusimba n'okukuuma emiti mu SGs

1. Ebikolwa ebirungi baganyula bonna

Singa Amina asimba ensukusa ze n'obwegendereza n'akakasa nti zilabirira bulungi, emiti giwangaala ne gikula bulungi. Olw'okuba SG ekola lipoota zonna awamu, obunyiikivu bwa Amina buganyula ekibiina kyonna ekisimba emiti ekya Kyabihire, ne kiyamba okuwandiika obulungi kaboni n'okusasula okuyinza okubaawo.

2. Obuvunaanyizibwa obw'awamu n'ebivaamu

Ka tugambe nti Yusufu asazeewo okukungula/okutema emiti gye egimu nga tebunnatuuka. Ekikolwa kino kikendeeza ku ttani za kaboni zonna awamu eziwandikiddwa ekibiina ekisimba emiti ekya Kyabihire, ekikendeeza ku nsasula SG gy'efuna mu eno bizinesi ya kaboni.

Ne bwe kiba nti bammemba abalala —Amina, David, Grace, Linda, ne Moses —balabirira bulungi emiti gyabwe, SG yandibadde ekyafiirwa ssente era eyinza okwetaaga okuliyirira ttani za kaboni ezaafiirwa ng'esimba emiti emipya.

3. Kaweeefube ow'okugabana n'obuwagizi obw'awamu

Grace akiraba nti ebiwuka bibaluseewo era n'ategezeza ekibiina. Bammemba nga bali wamu bakola ne bakirwanyisa, nga bakuuma emiti gya buli muntu. Ekikolwa eky'okwegatta kiraga engeri buli mmemba okufaayo ku ngeri gye kwongera ku bulungibwansi bwa SG.

Mu ngeri y'emu, David, Linda, ne Moses bwe ba-waayo ku mirimu gya SG ng'okuddukanya emesezo (nasale bedi) oba okuteekateeka ettaka, omulimu gufuuka gwa mangu era gukola bulungi, ne gunyweza omugaso gw'okuvunaanyizibwa ku buli omu.

Lwaki okuvunaanyizibwa ku buli omu kukulu

Obuwanguzi obw'okugabana: Ebikolwa ebirungi ebikolebwa mmemba omu biganyula ekibiina kyonna; omuwendo omulungi ogw'okuwangaala kw'emiti n'e mubusubuzi bwa kaboni obukakasibwa mpeera eri buli muntu.

Obuvunaanyizibwa obw'okuddinjana: Ensobi oba ebikolwa nga tebinnabaawo bikwata ku buli muntu. Okukungula kwa Joseph, mu mbeera eno, kukendeeza ku nsasula ya Kyabihire Tree Planting Group, ekiraga ebiva buterevu mu kulagajjalira obuvunaanyizibwa bwa buli omu.

Obwesige n'okukolagana:

Obuvunaanyizibwa buzimba obwesige, bukubiriza bammemba okuwagiragana, era bukuza enkola ey'obuvunaanyizibwa obw'awamu.

Mu kibiina kya kyabihire tree planting group, okuvunaanyizibwa ku buli omu kya mugaso nga kwotadde n'enkola ya buli lunaku.

Ebikolwa bya buli mmemba

—okusimba, okukuuma, oba n'okukungula emiti

—bikwata ku SG yonna. Ku Amina, Dawudi, Grace, Yusufu, Linda ne Musa, kino kikakasa nti:

Omuntu bw'atuuka ku buwanguzi, byonna bituuka ku buwanguzi.

Omuntu bw'agwa, bonna bawulira okukosebwa.

Nga bakkiriza okuvunaanyizibwa ku buli omu, abalimi ba TIST bakimanyi nti kaweeefube waabwe ssekinnoomu teyawukana ku bituukiddwaako ekibiina ekitono. Kino kikakasa nti ekibiina kya Kyabihire tree planting group kigenda mu maaso n'okukulaakulana, kiyamba mu kusimba emiti mu ngeri ey'olubeerera, era kifuna emigaso gya kaboni egy'obwenkanya nga bayita mu kwewaayo kwabwe okw'awamu.

KISWAHILI

2025 SHIRIKA LA FAIDA, HABARI ZA KUSHEREKEA.

Tuna furahi kutangaza kwamba malipo ya shirika la faida 2025 ni huanza mei .01.2026.

Kwa SGS zote zinazostahili kupata faida ya 2025 itapata malipo. tunatuma barua za malipo kwa wakulima kuwaaaini, wajumbe wote wa SG wanatakiwa kusaini na kurudi kwa watumishi wa kikundi na malipo yatatumwa haraka vile iweze kanavyo.

Kwa vikundi vidogo ambavyo haiistahiki shirika la faida 2025 sasa,tunakutumia barua zina zoonyesha habari zilizopo na kundi lako litastahili kulipwa faida haraka-haraka kama taarifa sahihi inasaitishwa

Hapa kuna mahitaji ya kustahiki ya kufaidika 2025;

- mashamba zote ya mepimwa ndani ya meizi12.
- SG nia mkataba wa GHG uliosainiwa na kupimwa
- mashamba yote yana habari sahihi ya msingi(umiliki,uhamis-ho,naukataji WA mtii).
- mashamba yote ya meodhunisha kufatiliwa.
- SG ina angalau moja ya kazo ya shamba
- SG haijaunguka.

Vile shirika la faida linafanya kazi.

TIST kufanikisha shughuli na Mambo mengi. Wana tekeleza mazoezi bora juu ya mashamba yao wenyewe,huchukua kaboni katika mtii yao,na huboresha ujuzi wao kwa uongozi kwajili ya kusaidia shughuli nyingine katika jamii yao. Kama unajua vizuri sana,mtii yako hula dioksidi kaboni ili ikukue. Wakati mutumishi wa nguzo anapohesabu mtii na hatua za ukubwa ,TIST inaweza kupima kiasi chadioksidi kaboni kuondolewa. TIST ina paswa kithibitisha kiasi hiki kwa kuwa na wahakikisho kuja na kuhesabu tanni nangeili kuhakikisha tunafuata mahitaji yote ya shirika la viwango(“Verra”).

Tanni za kaboni zinazuzwa kwabei tofauti,kulingana na ubora wa shirika na shughuli zinazounda tanni hizo. TIST daima ime kua na bei kubwa kuliko wastano,kwa sababu ya faida inayoonekan kwamba wakulima wa TIST huunda.

Ni nini kinachofanya watejja wawe tayari kulipa zaidi tanni za TIST?

•faida inayoonekana kama:kuchunga nyuki,kilimo chauhifadhi , kilimo cha kikaboni,kuokoa nishati ya kupika,usimamizi wa mbolea ya mbolea,muzunguko wa uongozi na zingine Zaidi!

•Maendeleo ya uongozi wa TIST katika wanawake na wanaume.

.mtii za matunda na mbegu,aina ya asili na aina tofauti ya mtii.

•Uwazi wa mpango wa TIST ina maana kwamba mteeja ana habari bora kuhusu ambapo tanni zinakuja kutoka kwa bei ya juu ya tanni za TIST, kwa sababu Bei hizo zajuu zinatupa juu faida.

Una ahiriki faida za bei ya juu kwajili hizo faida za juu zin letaa tupokea 70%ya faida hizo.

Maelozo mafupi ya mpango wa TIST kwa kila nchi.

Uganda: TIST ime kuwa ikifanya kazi nchini uganda tangu

mwaka2003.

TIST Uganda kwa idadi ya:

vikundi: 16,702

- Nchi: 4
- Wakulima:305,592
- Vikundi vidogo:58,120
- Mtii:30,093,927

Wakulima wa TIST.

Takwimu zetu katika TIST ili kuuza mikopo ya kaboni,na ili tunyia malipo ya faida na faida, taarifa na data ilio tolewa kwa mutumishi wako wa kikundi,na kisha akaingiza kwenye data bana,lazima iwe sahihi,kama unavyojua,tume kua tukifanya kazi miakamiwili iliyopita ili kupata taarifa hiyo sahihi kabisa,kwa msaada wahili tafadhali kithibitisha vituo vizuri chini.

wanachama wote wanajumvishwa katika mkataba wa GHG

zote mashamba za wanachama zilivyo hesabiwa,zijumuishwe katika mkataba wa GHG.

Asante sana kwa ufahamu wako na kwa kujitolea kwakwo kwa TIST.

“SISI NI KAMA KAWAIDA TUNAJIIBIKA”

Kuelewa thamani hii ya TIST kupitia hatua za vikundi vidogo

ATESO

Moja ya thamani ya TIST ni sisi kua wajibikaji." Kwa wakulima wa TIST,hii kwa kweli ina maana kwamba kila hatua iliyo chukuliwa nawanachama wa kikundi kidogo huathiri, kundi lote vyema au vibaya na kwamba mafanikio yote yanaonyesha jitihada za pamoja za kila mwanachama..

TIST vikundi vidogo (SG):

TIST ina fanya kazi kupitia vikundi vidogo (SG) ya wanachama sita (6)hadi kumi na wawili(12). Fikiria moja kwa kundi ndogo SG,ilie itwayo kyabihire tree planting group,ilio undwa na wanachama sita 6 waliojitolea: Amina,Daudi,Neema, Joseph, Linda na musa.

Upandajji wa mtii na ulinzi katika -SGs

1. Vitendo vyema vina faidisha wote.

Kama Amina hupanda miche yake kwa makini na kuhakikisha huda-duma nzuri,mtii huishi na kukua vizuri kwa sababu SG inaripoti kwa pamoja,biidi ya Amina ina faidisha kundi lote la kupanda mtii,ya kyabihire ,na kuchungia kwenye rekodi bora ya kaboni na malipo.

2. Wajibu wa pamoja na matokeo ya kudhuri.

Yusufu akiamua kuvuuna mapema baadhi ya mtii yake,hatusia hii inapunguza tanni za kaboni iliyo andikwa kwa kundi la kupanda mtii ya kyabihire, ambayo kwa hivyo inapunguza pia malipo ya SG,ina para mikopo ya kaboni, hata kama wanachama wengine sasa: Amina ,daudi,Neema,linda na musa- walichuwa huduma kamili ya mtii yao,SG ingekua Bado hupoteza fedha na inaweza kuhitaji kulipa faida Kwa tanni za kaboni zilizopotea kwa kupanda mtii mpya.

3. Shirika wa nguvu na msaada wa pamoja

Grace alitambua kuzikwa kwa wadudu na kujulisha kikundi, pamoja, wanachama wana fanya kuidhiti,,kulinda Mtii ya kila mtu,

Hatua ya pamoja inaonyesha jinsi wanalifuweyu kwa kila mwanachama huongeza ufanisi wa SG.

Vivyo hivyo, wakati daudi,linda,na musa huchangia shughuli za SG kama usimamizi wa kitalu au maandalizi ya ardhi, kazi inakuwa ya haraka na yenye ufanisi saidi, kuimarisha thamani ya uwajibikaji ya pamoja yaligawanyikani mafanikio.

Kwanini jambo la kwajibikia pamoja.

Ushindi ilie shirikiwa: vitendo vyema na mwanachama moja hufaidisha kundi mzima,kiwango Cha maisha ya mtii na mikopo ya kithibitishwa ya kaboni Ni tunzo kwa kila mtu katika kundi.

Wajibu wa kawaida: Makosa au vitendo vya mapema vinaathiri kila mtu,mavuno ya yusufu katika kesi hii, hupunguza malipo ya kundi la mimea ya kyabihire,huonyesha matokeo ya moja kwa moja ya kukataa, uwajibikaji wa pamoja.

Uaminifu na ushirikiano: uwajibikaji hujenga uaminifu,ina himiza wanachama kusaidiana,na ina lenga utamaduni wa uwajibu wa pamoja

Katika kundi la kupanda mtii ya kyabihire, uwajibikaji wa pamoja nithamani pamoja na mazoezi ya kila siku .

Kila mjumbe-kupanda,kulinda,au hata kuvuna mtii-athari SG mzima.

Kwa Amina,daudi,Neema, yusufu,linda,na musa,hii ina hakikisha kwamba:

Ngoku emithuhire yikakolha

- Abalimi abe TIST bakakolha ebindu binene - Emikolhere mibuya omwa malima wabu, emithi yabu yikabika embeho, nobulemi omwabipindi. Ngoku munasi ndeke indi emithi yikabika embeho enyibi - CS amabara emithi yaghu neripima obunene byayu, TIST yikathoka erilhenga embeho eyiri omwamithi yaghu. TIST yiwithe abakaghumaya ngoku thukalhenga embeho erihamya indi yine okwa muthindo owa 'VERRA'
- Embeho yikaghulibawa okwa beyi eyithasosene, erisingikira okwa bubuya obwekithongore, n'ebikakolhebawa omwibika embeho eyo. Embeho eye TIST yabiribya yinawithe ebeyi eyiwene habwa 'Visible Benefits' esikakolhebawa nabalimi abe TIST.

Ekyikalheka abawuli bakasasura esente sinene okwa mbeho eye TIST

- 'Visible Benefits' nga esyanzukyi, obulime

obomulembe

- Obulemi omwa TIST obwa bakali nabalhume
- Emithi yebighuma, neyobuhangwa
- Eribya bamazima omwa TIST kyikamanyisaya omuwuli akakenga ndeke ahembeho yikalhwa.

Mukaghabana okwa maghoba awebeyi eyiwene eyembeho eye TIST - abalimi bakathunga 70%

Emikolhere eye TIST omwa bulhi kihwo.

Abalimi abe TIST

Erighulya embeho nerithuhibwa ndeke, omwatsi owamukaha aba CS atholere eribya inahikire. Ngoku munasi thulhwe ithunimukolha erikokothya omwatsi oyu. Omwiwathikya ekyi ghughumaye ebi:

- Abandu abegurupu abosi babye okwa GhG
- Amalima awosi awanabarire abye iniwabandu abane okwa GhG.

Mwasinjia erikenga nerighend'embere imunimukolha emibiri eye TIST.

”THUKABARILHANA ”

Erikenga engusu eyi erilhaba omwamikolhere y'egurupu.

Engusu enguma ye TIST ni ” Thukabarilhana.” Oku balimi be TIST, ekyi kyikamanyisaya kyithi emikolere eyobuli mumemba omwagurupu yikahamba okwa gurupu eyosi - omunabi kwetsi omundeke - nebikarwamu bikakangania amani aw'obulimumemba.

Egurupu enyike eye TIST (SG)

TIST yikakolhera omusyagurupu esikesike(SGs) esyabandu 6 - 12. Ekyerileberyaku: Kyabihire tree planting group yikolirwe nabandu 6; Amina, David, Grace, Joseph, Linda na Moses.

Erihera emithi nerilhindayo omwa SGs

1. Emikolere mibuya nibuwathikya obwabosi. Amina amahera emithi yiwe yandekere kandi nerilabirirayu ndeke, emithi yikakulha ndeke. Kusangwa SG yikakangania ebyabosi haghumerere, emikolere yandekere ya Amina yikawathikaya egurupu eyosi - Kyabihire tree planting group.

2. Erihera haghuma: Joseph amathwamu erithema emithi yiwe; ekyi kyikakehaya embeho y'egurupu eye Kyabihire tree planting group, kandi kyikakehaya n'emithuhire y'egurupu eyu.

Abandi bamemba - Amina, David, Grace, Linda

na Moses nomubangalhabirira emithi yabo yandekere, esyasente syegurupu sikisakeha, kandi kyanganayethesibwa erihera emithi emihyaka eyindi.

3. Erisorokya amani n'eriwathikangania. Grace makaminyerera obuhuka obukatsandaya amabwira egurupu; egurupu eyosi iyatsungabu. Eritsomana eryobulimumemba rikongera okwa emikolere yandekere y'egurupu.

David, Linda na Moses bamakolera haghuma omwamibiri y'egurupu, ng'omwilasya embuthu kwetsi omwitakanizya erilima, omubiri akahwa lhuba kandi inakolebwa ndeke. Ekyi kyikakangania omughaso weribalhirana.

Habwakyi eribalhirana nikyikulhu

Erisungura haghumerere. Ebibuya ebikakolebawa nomumemba mughuma bikawathikaya egurupu eyosi; eribyaho ndeke ly'emithi n'embeho eyiwene nibyobulimundu.

Erihera haghuma. Esyansobi kwetsi emikolere eyithahikire bikahamba okwa bulimundu omwa gurupu **PU EYU. EMITHEMERE Y'**emithi nga Joseph omukyerilheberyako, kyikakehaya emithuhire ya Kyabihire tree planting group, ekyikakanganyaya ekyithibu kyerithendi barilhana.

Obuyisiwa nerikolhera haghuma. Eribarilhana rikahimba obuyisiwa n'abamemba eriwathikangania.

Omwa Kyabihire tree planting group, eribarilhana ni ngusu kandi nimubere owobulikyiro. Ekyikakolhebawa n'obulimumemba; erihera, erilinda kwetsi erithema emithi bikahamba okwa gurupu eyosi. Amina, David, Grace, Joseph, na Moses ekyi kyikalheka:

Omughuma amasungura abosi bakasungura

Omughuma amatsandya abosi kyikabahambaku.

Omwiwathikya, abalimi abe TIST bakaminyerera ndi amani w'obulimundu siwangihaghu okwa busunguzi obw'egurupu eyosi. Ekyi kyikalheka Kyabihire tree planting group iyasungura omwihera ly'emithi n'erithuhibwa esyasente sy'embeho.

FOR TIST general inquires about TIST expansion, Payments, Trainings, small group formation and registration, and Tree Planting call:
